

CARDIOLOGY GRAND ROUNDS, SEPTEMBER 2000 – JUNE 2001 (9/12/00 – 6/19/01)

Date	Topic	Speaker	Institution
09/12/00	What Is Myocardial Blood Volume? Why Is It Important?	Sanjiv Kaul, MD	UVA, Cardiology
09/19/00	Echo-Doppler Evaluation of Congestive Heart Failure	William F. Armstrong, MD	Univ of Michigan Health Sys
09/26/00	Mechanisms of Opioid-Induced Cardioprotection	Garrett J. Gross, PhD	Medical College of Wisc
10/03/00	Hormones and Vasoprotection	Suzanne Oparil, MD	University of Alabama
10/10/00	Atherosclerosis, Restenosis and Diabetes	James J. Ferguson, MD	Baylor College of Medicine
10/17/00	Surgical Innovations in Valvular Heart Disease	Irving L. Kron, MD	UVA, TCV Surgery
10/24/00	Cost-Effective Comprehensive Risk Factor Modification	Roger S. Blumenthal, MD	Johns Hopkins University
10/31/00	Cardiology in the New Millennium: Can We Curb the Global Epidemic of Cardiovascular Disease?	Sidney C. Smith, MD	UNC, Chapel Hill
11/07/00	Angiotensin II and Coronary Artery Disease	R. Wayne Alexander, MD	Emory Univ School of Med
11/14/00	No Grand Rounds		
11/16/00	The Long QT Syndrome: From Molecular Biology to Clinical Management	Peter J. Schwartz, MD	University of Pavia, Italy
11/21/00	Coronary Risk Factors, Endothelial Function and Atherosclerosis	Robert A. Vogel, MD	University of Maryland
11/28/00	The Promise of Photoangioplasty	Tony M. Chou, MD	U of Calif-San Francisco
12/05/00	What Clinicians Need to Know About Antiarrhythmic Drugs	James A. Reiffel, MD	Columbia University
12/12/00	Intracoronary Brachytherapy for Coronary Restenosis	George W. Vetrovic, MD	Medical College of Virginia
12/19/00	Arrhythmias Associated With Congenital Heart Disease	J. Michael Mangrum, MD	UVA, Cardiology
12/26/00	NO GRAND ROUNDS		
01/02/01	NO GRAND ROUNDS		
01/09/01	Tissue Protection by Agonists of A _{2A} Adenosine Receptors	Joel M. Linden, PhD	UVA, Cardiology
01/16/01	Endovascular Therapy for Aortic Aneurysms	John A. Kern, MD	UVA TCV Surgery
01/23/01	The Ethics of Human Experimentation: How Much Progress Have We Made?	Jonathan D. Moreno, PhD	UVA, Biomedical Ethics
01/30/01	Cardiovascular Disease in the Next 30 Years: What Can We Expect?	George A. Beller, MD	UVA, Cardiology
02/06/01	Anticytokine Therapy for Heart Failure: Bridging the Bench to the Bedside	Arthur M. Feldman, MD	University of Pittsburgh
02/13/01	Twenty Questions on Atherosclerosis	William C. Roberts, MD	Baylor University
02/20/01	Pacing Therapies for Congestive Cardiac Failure	J. Paul Mounsey, MD	UVA, Cardiology
02/27/01	Atherosclerosis: An Inflammatory Disease	Edward T.H. Yeh, MD	UT, Anderson Cancer Center
03/06/01	CANCELED-WEATHER (Biology of Coronary Interventions: Science to Clinical Practice)	(Campbell D.K. Rogers, MD)	(Brigham & Women's Hosp)
03/13/01	Aspects of Mechanical and Metabolic Function in Coronary Vasomotion	Ole Frøbert, MD	Skejby Univ Hosp, Denmark
03/20/01	NO GRAND ROUNDS		
03/27/01	Atrial Arrhythmias: Treatment Strategies for the New Millennium	Lai Chow Kok, MD	UVA, Cardiology Fellow
04/03/01	Prevention of Cardiovascular Disease	Carlos R. Ayers, MD	UVA, Cardiology
04/10/01	New Paradigm for Antiplatelet Therapy in Acute Coronary Syndrome and Percutaneous Coronary Intervention	Spencer B. King, MD	Emory University
04/17/01	Anorexigens and Cardiovascular Disease: What Have We Learned?	Arthur E. Weyman, MD	Harvard Medical School
04/24/01	The Renin-Angiotensin System and Fibrinolysis: Evolutionary Misadventures	Douglas E. Vaughan, MD	Vanderbilt University

CARDIOLOGY GRAND ROUNDS, SEPTEMBER 2000 – JUNE 2001 (9/12/00 – 6/19/01)

05/01/01	Mechanical Complications of Acute Myocardial Infarction	Gregory G. Bishop, MD	UVA, Cardiology Fellow
05/08/01	Diagnosis and Management of Thrombophilic Symptoms	Ronald A. Sacher, MD	University of Cincinnati
05/15/01	Management of Cardiac Disease During Pregnancy	Elizabeth Le, MD	UVA, Cardiology Fellow
05/22/01	Aortic Stenosis in the Older Patient	Shahbudin Rahimtoola, MD	USC-Keck School of Med
05/29/01	EKGs That Think	J. Randall Moorman, MD	UVA, Cardiology
06/05/01	Finding Hidden Information in Data: What Every Cardiologist Should Know About Chaos Theory	Ary L. Goldberger, MD	Harvard Medical School
06/12/01	Gene Therapy for Therapeutic Angiogenesis	Jeffrey M. Isner, MD	Tufts/St. Elizabeth's Med Ctr
06/19/01	Endothelial Function, Atherosclerosis and Cardiovascular Risk: Implications for Therapy	Mark A. Creager, MD	Brigham & Women's Hosp
