UVA CARDIOLOGY GRAND ROUNDS, 2002-2003

DATE*	SPEAKER NAME	LECTURE TITLE
9/10/2002	Elizabeth Hammond, MD	Humoral Rejection and Its Long-Term Consequences in Heart Transplantation
▶ 9/17/2002	Robert Superko, MD	Metabolic Treatment of Coronary Artery Disease: What's New for 2003?
9/24/2002	Ivan Robbins, MD	Evaluation and Management of Pulmonary Arterial Hypertension
10/1/2002	Joseph Loscalzo, MD	Homocysteine and Atherothrombosis
▶ 10/8/2002	Rakesh Kukreja, PhD	Preconditioning and Myocardial Protection
▶ 10/15/2002	Richard Cannon, MD	The Dilemma of Chest Pain Despite Normal Coronary Angiograms
▶ 10/22/2002	Douglas Weaver, MD	(Crampton Lectureship) Angioplasty and Thrombolysis for Acute Myocardial Infarction--Do the Data Suggest We Change Our Practice?
▶ 10/29/2002	Albert Waldo, MD	Update on Atrial Fibrillation: Mechanics and Management
▶ 11/5/2002	Carlos Ferrario, MD	The Role of Angiotensin II on Atherosclerosis and the New Data on LIFE
11/12/2002	Julie Hambleton, MD (canceled)	Direct Thrombin Inhibitors in Arterial And Venous Disease
▶ 11/26/2002	Stuart Connolly, MD	Sudden Death Prevention
▶ 12/3/2002 (2 programs)	Pascal Goldschmidt, MD	Translation of Scientific Discoveries on Atherosclerosis Into Clinically Relevant Strategies A "Rejuvenating" Look at Atherosclerosis, the Progenitor Vascular Cell Story
▶ 12/10/2002	Peter McCullough, MD	Renal Failure as a Risk Factor for Cardiovascular Disease
▶ 12/17/2002	Clyde Yancy, MD	A New Paradigm in Heart Failure-BNP, Ready for Clinical Practice
1/7/2003	Robert Vogel, MD	The Vascular Biology of Coronary Risk Factors
▶ 1/14/2003	Kristen Newby, MD	Heart Disease in Women-EBM, HRT/Selective Estrogen Receptor Modification
▶ 1/21/2003	Lewis Kuller, MD	The Evolving Lipid Management Paradigm
▶ 1/28/2003	Dean Kereiakes, MD	New Directions in Coronary Interventional Therapy: New Stents, Photodynamic Therapy and Other Technologies
▶ 2/4/2003	Marcello Di Carli, MD	Value of Noninvasive Imaging in High-Risk Coronary Artery Disease Patients: A Multimodality Approach
▶ 2/11/2003	Jay Cohn, MD	Progression of Heart Failure: Mechanisms and Treatment
2/18/2003	William Weintraub, MD	Heart Failure: The New Vascular Biology Imperative to Blunt Progression
▶ 2/25/2003	Robert Roberts, MD	Genetics of Inherited Causes of Sudden Death
▶ 3/4/2003	Joel Linden, PhD (UVA)	Tissue Protection by Agonists of A _{2A} Adenosine Receptors
▶ 3/11/2003	Scott Lim, MD (UVA)	Transcatheter Device Therapy for Occlusion of Cardiac and Vascular Shunts
▶ 3/18/2003	Kenneth Kent, MD	Continued Challenges in Percutaneous Coronary Interventions: Patients With Diabetes and Patients With Renal Insufficiency
▶ 3/25/2003	Ivan Crosby, MD (UVA)	Aortic Valve Reconstruction
▶ 4/8/2003	Raymond Kim, MD	Assessment of Reversible and Irreversible Myocardial Injury by Magnetic Resonance Imaging
▶ 4/15/2003	Carole Warnes, MD	Adult Congenital Heart Disease: Born to be Bad?
▶ 4/21&22/03	Warren Jackman, MD	(Grollman Lectureship) MGR 4/21: Reflections on the Wolff-Parkinson-White Syndrome. CGR 4/22: Ablation Therapy for the Spectrum of Atrial Tachycardia.
4/29/2003	Jonathan Christiansen, MD (UVA)	Targeted Cardiovascular Imaging--Insights Into Molecular and Cellular Mechanisms of Disease
▶ 5/6/2003	Joseph Witztum, MD	Innate Immune Responses to Oxidized LDL
▶ 5/13/2003	Kurt Barringhaus, MD (UVA)	Inflammation and Restenosis
▶ 5/20/2003	Bill Phillips, MD (UVA)	Surrogate Endpoints in Percutaneous Coronary Intervention Trials--Are CK-MB and cTnl Elevations Meaningful Endpoints?
▶ 5/27/2003	Christina Bove, MD (UVA)	Evaluation and Treatment of Atherosclerotic Renal Artery Stenosis
▶ 6/3/2003	Robert O'Rourke, MD	Passivation of High-Risk Coronary Artery Plaques by Aggressive Medical Therapy
▶ 6/10/2003	Richard Birnbaum, MD (UVA)	Genetic Modification of Vein Grafts to Prevent Accelerated Atherosclerosis
▶ 6/17/2003	Aly Rahimtoola, MD (UVA)	Pulmonary Embolism for the Cardiologist

*No CGR on 11/19, 12/24 & 12/31 & 4/1.
