  - Colorectal Cancer Screening
- 1:30 **Adjournment**

## THE BIG PICTURE AIMS & LONG-TERM OBJECTIVES

1. Build and strengthen the **research capacity** among members of **two Community Action Teams**, focused on Cancer Prevention and Early Detection, through relevant PCOR **skill-based trainings**.
2. Identify actionable, cancer PCOR priorities based on existing **local data and stakeholder/patient** input.
3. Advance the community capacity of Community Action Teams to **conceptualize, plan, mobilize resources, and execute cancer control** PCOR projects in their communities.

To accelerate the effectiveness testing, dissemination and implementation, and sustainability of culturally appropriate evidence-based cancer control interventions and programs in rural Appalachia.
