**Surgery Grand Rounds – Speaker Information**

**DATE:** February 19, 2020  
**LOCATION:** Sandridge Auditorium (McKim Hall)  
**TIME:** 8:00 – 9:00am  
**TITLE:** “Opioids Update: A Whirlwind Tour of Where We Have Been and What the Future Holds”  
**Speaker:** Traci L. Hedrick, MD, MS  
Associate Professor of Surgery  
UVA Department of Surgery

**LEARNING OBJECTIVES:**

1. Understand the societal and medical implications of opioid misuse  
2. Identify methods to reduce opioid consumption  
3. Explore the latest developments in multimodal analgesia

**QUESTIONS True or False:**

1. Drug overdose is a leading cause of accidental death in the United States  
2. Chronic opioid use prior to surgery is associated with increased risk of surgical complications  
3. Opioids are the only option for treatment of postoperative pain  
4. IV acetaminophen is superior to oral acetaminophen in the treatment of postoperative pain  
5. Gabapentin is associated with increased risk of respiratory depression

**DISCLOSURES:**  
Dr. Traci L. Hedrick has indicated that she does not have any personal or professional financial relationships with commercial entities producing healthcare goods and/or services. (See Submitted COI)
