

Product lines currently in stock:

- **Qiagen**-reagents for DNA preparation
- **Roche**-enzymes for molecular biology
- **Invitrogen**-reagents for molecular biology
- **Stratagene**-Molecular Biology reagents, some Comp Cells
- **Applied Biosystems**-DNA sequencing preparation reagents, plates, tubes Ambion reagents
- **Bio-Rad**-electrophoresis supplies
- **NEB**-restriction enzymes
- **Fisher**-lab supplies, gloves, kimwipes,
- **BioLine**-DNA preparation reagents
- **Pierce**-Protein analysis reagents
- **USA Scientific**- Plastics, pipettes

Welcome to the Molecular Biology Supply Core

The Molecular Biology Supply Core (MOL MART) opened in January 2008 in response to a need for readily available, reasonably priced reagents and supplies.

During this past year we have worked to establish an inventory that is appropriate and responsive to the needs of investigators within the University community. The goal is to maintain a dynamic inventory that responds to the changing needs of the University.

We maintain a significant stock of reagents and supplies in the stockroom and are always happy to discuss additions to that inventory. In addition, we can, on request, special order seldom used items from many of our vendors.

Due to the remote location of the Supply Center, we provide delivery to labs within the medical center complex. Orders place on line before 1PM will be delivered the same day. Orders place after 1PM will be delivered the following day. After 2PM emergency pick up can be arranged by calling 4-2869.

Partial list of items available

LIPOFECTAMINE 2000 REAGENT	Invitrogen
PLATINUM TAQ HIGH FIDELITY	Invitrogen
TRIZOL REAGENT	Invitrogen
dNTP set, 4 X 25 µm (250µL)	Roche
HiSpeed Plasmid Maxi Kit, 10 rx	Qiagen
QIAprep Spin Miniprep kit, 50 rx	Qiagen
QIAquick PCR Purification kit, 50 rx	Qiagen
PolyFect Transfection Reagent	Qiagen
RNeasy Mini kit, 50 rx	Qiagen
Criterion, 10-20% Tris HCl	Bio-Rad
Criterion XT Bis-Tris gel, 4-12%,	Bio-Rad
Ready Gel 10% Tris-HCL, 10 well	Bio-Rad
Ready Gel, 4-20% Tris-HCl, 50ul	Bio-Rad
Precision Plus Std Dual-Color	Bio-Rad
BamH1, 10,000 U	NEB
Sal 1	NEB
BGL 11 2, 000 U	NEB
RNase Zap, 250ml	ABI
High Capacity RNA to c-DNA	ABI
