*Where Science
Meets
Convenience*

About Us

The Molecular Biology Supply Core (MolMart) responds to a need for readily available, reasonably priced reagents and supplies. MolMart carries a large range of common reagents and supplies, with the intent to maintain a dynamic inventory on site. We can, on request, place special orders for seldom used items from many of our vendors, usually at a cost savings for users. As always, we are happy to discuss additions and changes to that inventory.

Store hours

9:00 - 5:00
Mon - Fri

Grab-and-Go!!

Our Services

Supplies

- Products carried by MolMart facility
 - Reagents
 - Laboratory plasticware
 - Oligonucleotides
 - Dry Ice

Other Services

- Special item ordering
- Liquid Nitrogen cell storage
- Supply pickup request - order is placed through iLab system and MolMart staff prepares order for pickup
