

Department of Medicine Presents

Medicine Grand Rounds

**ANAPHYLAXIS 2016:
The regional epidemic of delayed anaphylaxis to red meat
and a case of KOUNIS SYNDROME.**

Thomas A.E. Platts-Mills, FRS

Oscar Swineford Jr. Professor of Medicine

Division of Allergy and Clinical Immunology

University of Virginia School of Medicine

Wednesday, September 7th, 2016

12:00 – 1:00pm

Old Jordan Auditorium 1-5

Disclosures: Dr. Thomas A.E. Platts Mills has the following disclosures:

These studies are primarily funded by NIH: AI-20565-32.

We are also grateful to Phadia/Thermo Fisher for unrestricted support for assays of IgE and IgG4 antibodies. Dr. Platts-Mills holds a patent on the use of IgE assays to screen monoclonal antibodies used in cancer therapy.

Planning Committee: Gerald Donowitz, MD, Ross Buerlein, MD, Peter Liu, MD, Erin McLoughlin, MD, and Annie Smith, MD; do not have any personal or professional financial relationships with commercial entities producing healthcare goods and/or services.

Learning Objectives

1. Understand the relevance of glycosylation to the prevalence of anaphylaxis to Cetuximab used in cancer therapy.
2. Appreciate the relevance of the expansion of Deer and Lone Star Tick populations to the prevalence of IgE to alpha-gal.
3. Recognize the relevance of age to the management of anaphylaxis.

The University Of Virginia School Of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University Of Virginia School Of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The University Of Virginia School Of Medicine awards 1.0 hours of participation (equivalent to AMA PRA Category 1 Credit™) to each non-physician participant who successfully completes this educational activity. The University Of Virginia School Of Medicine maintains a record of participation for six (6) years.
