

UVA Division of Endocrinology: Research in Progress
2012 Fall Semester

- 9/25/12 *2nd Year Clinical Endocrine Fellow Dr. Ruchi Bhabhra:*
"Role of Progesterone in regulation of the diurnal GnRH pulse pattern during puberty and the influence of hyperandrogenemia."
- 10/2/12 *2nd Year Clinical Endocrine Fellow Dr. Amy Anderson:*
"Etiologic Factors of Obesity Associated Hyperandrogenemia During Puberty (8:30 AM)"
- 2nd Year Clinical Endocrine Fellow Dr. Nagashree Gundu Rao:*
"Pan-arterial vascular insulin sensitivity in Metabolic syndrome and the role of Metformin, low fat diet and exercise in modulating metabolic and vascular insulin sensitivity (3 PM)"
- 10/9/12 *2nd Year Clinical Endocrine Fellow Dr. Sharmilla Subaran:*
"GLP-1 and Muscle Microvasculature"
- 10/16/12 Dr. Stephen Steiner:
"A six-transmembrane metal reductase: A Role Player with many names (but what role does it play)?"
- Kathryn Corbin:
"The Avocado and the Diabetic"
- 10/23/12 Dr. Bijoy Kundu:
"PET Imaging of Myocardial Metabolism and Blood Flow in the Stressed Mouse Heart In Vivo"
- 10/30/12 Hui Li—CANCELLED "JAZF1-JJAZ1 Fusion, Menstrual Cycle and Potential Therapy for Endometrial Cancer"
- 11/6/12 Ira Schulman—"Control of HDL function by Liver X Receptors."
- 11/13/12 Slobodan Todorovic—"Reversal of neuropathic pain in diabetes by targeting glycosylation of T-type calcium channels"
- 11/20/12 Reception in honor of Dr. Marcy McDuffie
- 11/27/12 Daniel Cox, "Testing a paradigm shift in the behavioral treatment of adults newly diagnosed with T2DM."
- 12/4/12 Dr. Anthony McCall:
"Meal insulin and simulation studies in the Artificial Pancreas"
