

UVA Division of Endocrinology: Research in Progress
2013 Spring Semester

- 2/19/13 Dr. Christopher Deppmann:
"Obesity and the sympathetic nervous system"
- 2/26/13 Dr. Joseph Lerner: "Shedding a new light on insulin resistance in diabetes PCOS, preeclampsia and Alzheimer's Disease"
- 3/12/13 Dr. Hong Wang: "A Critical Regulatory Site for Trans-capillary Insulin Delivery: Trans-endothelial Transport"
- 3/19/13 Dr. Hui Li: "JAZF1, T2D, fusion RNA and beyond"
- 3/26/13 Dr. Shetal Padia: "Renal ghrelin-receptor-mediated sodium regulation: implications for obesity-induced hypertension."
- 4/2/13 Dr. Patrick Antkowiak:
"Magnetic Resonance Imaging of Functional Beta Cell Mass and Pancreatic Inflammation in Mouse Models of Diabetes"
- 4/9/13 *3rd Year Endocrine Fellow Dr. Cristina Gherge:*
"Elucidating Pressure-Natriuresis: Putative Role for Na⁺, K⁺ ATP-ase as a Receptor"
- 4/16/13 *3rd Year Clinical Endocrine Fellow Dr. Greg Hong:*
"The Role of Caveolae and Insulin Signaling in Brain Endothelial Insulin Transport"
- 4/23/13 Dr. David Castle:
"Cholesterol Regulation and the Insulin Secretory Pathway"
- 5/14/13 Dr. Craig Nunemaker:
"Grant Aims proposal: Revised CDA for the ADA"
- 5/21/13 *1st Year Clinical Endocrine Fellow Dr. Katarina Topchyan:*
"Exercise-informed closed loop control (CLC) efficacy in physically active people with type 1 diabetes.""
- 5/28/13 *1st Year Clinical Endocrine Fellow Dr. Jennifer Gibert:*
"Retrospective study of health outcomes related to adoption of low-fat, plant-based diet and predictors of patient success"
- 6/4/13 *1st Year Clinical Endocrine Fellow Dr. Amanda Russel-Kleiner:*
"Does Type 1 Diabetes impair baseline and insulin-responsive vascular function throughout the arterial vasculature in young adults with this condition?"
- 6/11/13 *1st Year Clinical Endocrine Fellow Dr. Wenyan Huang:*
"MicroRNA and vascular insulin resistance"
