

UVA Division of Endocrinology: Research in Progress
2014 Spring Semester

- Jan 28 Leon Farhi: "Use of glucagon inhibitors to enhance the protection against hypoglycemia in insulin deficiency"
- Feb 4 Dr. Amanda Kleiner, 2nd Year Clinical Endocrine Fellow (Barrett Lab):
"Impact of Type 1 diabetes on baseline and insulin-responsive pan-arterial vascular function."
- Feb 11 Craig Nunemaker:
"Iron-regulating genes in pancreatic islet inflammation"
- Feb 20 Dr. Peter Butler, UCLA:
"The role of islet liver miscommunication in diabetes"
NOTE SPECIAL TIME AND VENUE
- Feb 25 Katarina Topchyan: "Impact of varied intensity exercises on closed-loop control in type 1 diabetes"
- March 4 CANCELED DUE TO SNOW
- March 11 Rhianna Laker (Zhen Yan Lab): "Exercise the embryo: shape up the epigenome."
- March 18 Wenyan Huang: "microRNA let 7i and vascular insulin resistance"
- March 25 Garrett R. Mullins (Graduate student in Thurl Harris Lab): "Adipose Insulin Signaling and the role of Oxidized Neutral Lipids...What's Next?"
- April 1 Ruchi Bhabhra, 3rd Year Endocrine Fellow: "Role of testosterone in the regulation of diurnal GnRH pulsatility during pubertal progression"
- April 8 Sharmila Subaran, 3rd Year Endocrine Fellow: "The effect of glucagon-like peptide-1 on human muscle microvasculature."
- April 15 Jennifer Gibert, 2nd year Endocrine Fellow:
"The Insulin Resistance Clinic: A Retrospective Chart Review"
- April 22 Amy Anderson, 3rd Year Endocrine Fellow: "Etiologic Factors of Obesity Associated Hyperandrogenemia During Puberty"
- April 29 No Research in Progress

- May 6 No Research in Progress
- May 13 1st year Endocrine Fellow Eleanor Hutchens in Dr. McCartney's Lab:
"Traditional and novel contributions to pubertal hyperandrogenemia."
- May 20 No Research in Progress
- June 10 Dr. Farhad M. Hasan, 1st Year Endocrine Fellow in Dr. Barrett's Lab:
"Does mineralocorticoid blockade improve vascular health in adults with type 1 diabetes?
Protocol for a 24-week randomized, placebo controlled trial"
- Dr. Ramya Embar Srinivasan, 1st Year Endocrine Fellow in Dr. Nunemaker's Lab:
"Association between iron-regulating genes islet function in type 2 DM"
- June 24 Nagashree Gundu Rao, 3rd Year Endocrine Fellow:
"Pan-arterial vascular insulin sensitivity in metabolic syndrome"
