

**Mid Atlantic Directors and Staff of Scientific Cores
2018 Annual meeting**

Cores: At the Forefront of Rigor & Reproducibility

June 18-20, 2018

Followed by:

**Business Skills Workshop
for Core Directors, Managers & Administrators**

June 20-22, 2018

Hosted by: Johns Hopkins University School of Medicine, Baltimore, MD

MAD SSCi Rigor & Reproducibility Focus

- Keynote talks on implementing Rigor & Reproducibility at every level of your facility
- Presentation by the Maryland State Police Forensics lab on Rigor & Reproducibility in the Forensics Laboratory Setting.
- Sessions highlighting Administrative, Technical & Analysis Best Practices
- Stakeholder conversations: working with PIs and analysts to ensure best practices at every level, from grant writing to experimental implementation and analysis
- Oral Poster presentations by the ABRF Research Groups

Business Skills Workshop

This program is taught by professors from the UVa Darden School of Business, using a curriculum tailored to assist core directors/managers in building an effective shared resource. The two-day workshop will provide participants with an introduction to Innovation Strategy, Customer Centricity, and Financial Acumen. The curriculum will use case studies from industries that are related to the Core Facilities that will help participants apply the experiences from other industries to their individual contexts.

All previous offerings of this course have sold out quickly, so don't delay!

Business Skills Workshop \$650 (includes free registration for MAD SSCi meeting)
MAD SSCi Meeting only: ABRF members \$125, Non-Members \$150
