

VISITING 4TH YEAR SCHOLARSHIP TO UVA'S RADIOLOGY AND MEDICAL IMAGING DEPARTMENT.

We are proud to offer up to \$1500.00 to help offset the costs of travel and housing for up to two highly qualified medical students per year who wish to do a visiting radiology clerkship at our institution during the months of August through October and whose backgrounds, interests or goals will bring diverse experiences and interests to UVA's Department of Radiology and Medical Imaging.

About the Scholarship

The purpose of this scholarship is to provide medical students the opportunity to experience what it is like to live and work in Charlottesville, while experiencing firsthand our Department's inclusive culture and welcoming environment. This clerkship experience will hopefully encourage students to consider a career in Radiology, enhance the students' knowledge of academic medicine and provide them with specific mentoring and networking opportunities.

Students will rotate for four weeks through our multiple subspecialty Radiology services. They will be expected to function at the level of an advanced medical student. Students will be expected to actively participate in morning teaching conferences and attend daytime didactic lectures, conferences and Grand Rounds with our residents. Becoming involved with a scholarly or teaching project will be highly encouraged.

Eligibility

Competitive applicants should have demonstrated academic excellence, leadership skills and a variety of extracurricular experience. Students should be strongly considering a career in Diagnostic or Interventional Radiology. The program is open to applicants who are first generation medical school attendees and/or socioeconomically disadvantaged students who have overcome substantial educational or economic obstacles in pursuit of their medical education.

Application Requirements

- Must attend an LCME-accredited medical school
- Be on track to complete all required basic coursework and clerkships at and graduate from their home institution
- Completed VSAS application (should include letters of recommendation and medical school transcript)
- Submit an updated Curriculum Vitae
- Personal statement on why you want to participate in this program and how it will help you achieve your overall career goals
- 2x2 photograph
- USMLE Step 1 score
- USMLE Step 2 score, if available

Due Date

Applications are due by October 1st for 2018. Beyond 2018, applications will be due by July 1st for the summer and fall electives for that specific year.

Contact Information

Please submit your application materials and forward any questions to Basia U. Nowakowski, Director Medical Education Programs. Department of Radiology & Medical Imaging.
