All Virtual Hosts will automatically be enrolled as a Student Ambassador. They will be contacted if they want to remain in the program.

Treasurer: Annual budget is 95% of the way finished. Awaiting final edits from Executive Board and Dean Densmore.

- **Discussions and Brainstorming**

- Email numbers/email fatigue
 - We plan to send out an email to clubs and the student body based on what we discussed in the groupme last week.
 - The plan is to utilize a Mulholland Community listserv, which already includes all students, for any “school-wide” emails. There is no plan to restrict clubs from emailing the entire class. Emails that can be sent to a specific, entire class can still go to the SMD X address.
 - If you need assistance with setting up a listserv for your club, please see Andy Vo
 - James from SMD 26 is planning to incorporate a google form where clubs can send community service events updates (see below for Community Fall Service Events)
- Preliminary conversations with graduate nursing students regarding possible collaborative courses and/or social events - stay tuned and email Lauren (led6az@virginia.edu) if interested in helping make this happen!
 - Graduate Nursing and SOM student leaders considering a collaboration between the two programs. Nursing Program has a faculty member interested in planning a 4th-year course/elective directed at medical ethics that nursing and medical students may find interesting. This collaboration is still in the early stage. Also interested in social events collaboration

between the Nursing and SOM program. The goal is to have more mixing between the two graduate schools.

- An open meeting for GPC (for all graduate programs at UVA): See Lauren if you have interest in GPC or the Nursing School collaboration project.
- Paige: Formal event in the spring between Nursing/SOM programs. There has been a groupme created potentially suggesting that this collaboration is gaining traction this year as it has been thrown around for several years.

Great turnout for a morning event.

UVA vs Miami game is the same day as Terrortoma so no Tailgate.

UVA vs Pitt is a game for potential tailgating, based on time of kickoff.

UVA vs UNC is likely for another Tailgate. If a night game, possibly incorporate a Chili Cookout Fundraiser.

Dr. Reed is reaching out to departments/specialties to put together a guide for M3/M4 transition. Pediatrics is already putting together a mentorship program.
