

Mulholland Monthly Meeting Agenda: September 22nd, 2022

Zoom link: <https://virginia.zoom.us/j/92027468960?pwd=SGYwN3NmV3pUbnZwbVkyYkZOR1lEdz09>

Meeting ID: 920 2746 8960; Passcode: 529244

- Welcome everyone!

- Especially our new officers!!

- Quick Social updates

- Social Events

- Tailgates (10/8, 10/29, 11/5, 11/12)/chili cook off
 - **Waiting to hear back about budget from Danny**
- Terrortoma (10/29)

- Clubs

- 3D Printing Club funding request follow-up and vote

- **Mulholland Society Voted to approve the funding**
- Below are Q&As we asked the 3D printing club leaders - **please read prior to the vote!!**

Q&A

1. Who will have access to the printer? Only medical students, or will students from other programs or undergrads be able to access the 3D printer if working alongside medical students?

Med students and, in the spirit of interdisciplinary collaboration, select graduate and undergraduate students from other programs that work with us and are trained by our team.

2. What is the estimated cost of upkeep (i.e., ink, etc.)? Will funding for ink or repairs be requested as needed via future funding requests?

Filament is priced at 15-20\$/kg. This would certainly need replenishment for projects (although optionally students with ideas could be encouraged to bring their own filament). Maintenance costs are variable and uncommon in new printers but usually are on the scale of 10\$ in parts + labor.

3. Who will do repairs if needed?

Fortunately, we now have multiple members (including at least one M1) with experience building printers from the ground up who very well may be able to perform basic service on the specific model we hope to purchase.

4. Do you anticipate receiving grant money? If so, will that go towards the cost of a new printer? What is the timeline of the grant application process and the estimated likelihood of the 3D printing club receiving this grant?

We are currently working with faculty on a proposal to expand 3d printing facilities available for health system faculty, staff, and students. This would hopefully provide further research publication and grant-writing opportunities (The types of printers in this grant would have specific features-- like full-color printing, high resolution, soluble support capabilities-- that would require more expenses than a consumer grade standalone printer (like the one we are looking to purchase for club use).

5. Does the 3D printing club receive funding from any other sources?
No other funding sources.

6. Can medical students access other 3D printers on campus? What are the specific barriers to accessing these existing printers?

The existing health system library printer is unfortunately in disrepair. With advances in 3d printing technology we have been told that it may be better to get a newer printer (that we would be able to maintain ourselves) vs. repair the old one, which may cost more than a new printer. Some of the reasons the original health system library printer was purchased was to decrease barriers to usage-- specifically having to pay high rates for printer use, commute long distances during business hours, or be trained in multiple steps etc.-- and to encourage the use of more of the library's expertise and resources. For situations where specialized printing features are desired (for example, for printing using metal or resin), though, we definitely think students' best bets should be to seek those out in respective makerspaces (School of Engineering, School of Architecture).

○ New Club Proposals:

-  2022 Fall New Club Proposals - **please read prior to the vote!!**
- We will send out google form for new club voting to the Mulholland officers at the end of the meeting and it will remain open for one week.
- Big thank you to all the club leaders who are in attendance for helping answer any questions we might have :)
 - **Cultivating Connections**
 - **Focus on bringing the plant-based nutrition to the UVA hospital and bringing that to the patients**
 - **Will reach out to Medicinal Gardening to see how active they are and if they need**
 - **UVA Med Soccer**

- Will make funding requests for equipment, to join the local league (\$60 fee to enter)
- Help fund club jerseys
- Looking for Pinn students to join the “exec board”, plenty of soccer up in NOVA that can be led by the Pinn student(s) as well
- **PlantMed**
 - No questions
- **TEACH**
 - They’re hoping to have residents and other senior instructors leading these lessons.
 - What is the end goal for this club, to be incorporated into the curriculum?
 - Aim to mirror Heart of Medicine, a low time commitment course that meets 3-4 times a semester/year
- **Med-Peds Interest Group**
 - UVA has no Med-Peds program
 - Q: Are they in contact with faculty who would be providing information on this?
 - Yes, there are a few faculty members and residents that have received this training on their radar.
 - They should look into co-hosting with the Peds interest group to increase their scope
 - Dr. Tremble is Med-Peds if they want a good resource
- **Ping-Pong Club**
 - Want to provide an easy way to get people who like ping-pong to come together
 - Q: Pinn students don’t have a Ping Pong table - how can we get them to participate?

- **Unsure**
 - **Only way to really have them participate is to buy another ping pong table**
 - **Surgical Skills Club**
 - **Already have a few surgical interest groups, do they offer any of the events that this club is trying to offer?**
 - **Other clubs are focusing more on networking and panels while this club would focus more on hands on learning**
 - **Open to collaborating with other surgery-related clubs**
 - **Laparoscopic practice would be invaluable**
 - **Having a centralized group available to the equipment would be great for the other surgery-related clubs**
 - **Medical Design Club**
 - **How is it different from UVA High Value Care Interest Group?**
 - **The Fall course has a very specific program/course**
 - **Want to open it up to students who didn't get to participate in the Fall M1 club**
 - **Dr. Trowbridge is very excited about teaching this!**
 - **UVA Med Cycling**
 - **No questions**
 - **UVA Guides to Application Success**
 - **Different from the M1 premed advisory program**
 - **More helpful to non-UVA undergraduate students**
 - **Comment: UVA Career office puts on a meeting in the Fall/Spring to help undergraduate students connect with this club**
 - **Culinary Medicine Club**

- **There is already a similar club, so Mira will reach out to help connect the two**
- **Trauma Informed Care:**
 - **No questions**
- **UVA Softball club**
 - **Originally participated in the city wide league, but likely transitioning to law school league because it's cheaper (\$500 vs \$70)**
 - **Mainly want to buy cheap equipment and maybe pay for registration fee**
- Interest group leaders - planning scheduling advising events?

● **Community Concerns and Shameless Plugs**

- Academic support resources:
 - TAs, system leaders, course faculty, course/clerkship directors
 - Dr. Noramly (Director of Academic Enhancement)
 - Mr. Kevin Watson (new full-time learning skills specialist)
 - Peer mentoring program (signup form on VMed)
- If you are a student with childcare needs, please consider filling out [this short anonymous survey](#) (5 min) created by members of the GPC - **due 9/21**
- Consider applying to represent UVA graduate students on President Ryan's Student Advisory Council (SAC) **by 9/23** - use [this link](#)
- Inova-Charlottesville Housing Exchange - [link here!](#)
- Please sign up to be a virtual host - [link here!](#)
- VP Office Hours: Friday, September 30th at 6:00 pm
 - Zoom Link: <https://virginia.zoom.us/j/9210256467>
- Sign VCU Letter opposing Governor Youngkin new proposal to remove protections from transgender / gender nonconforming youth in schools ; potentially compose own UVA letter in conjunction with QMD
 - <https://docs.google.com/document/d/1qfFOJJQSmAkHimLyrEzZZmDqh1G5nFNcdpgan2CKq78/edit?usp=sharing>

- Student Lounge coffee maker
 - The coffee maker is Micayla's nemesis and an underperforming machine for our caffeine demands. Jura customer service is terrible.
 - Proposing the idea to sell the current machine and buy a true coffee workhorse that is not going to let us down.
 - Vote here if you have strong feelings about coffee machines → <https://forms.gle/XWByQfv7ThSZxjur7>
- Please add here

● Upcoming Events and Future Items

- Graduate and Professional Council
 - Graduate Student Convocation and Activities Fair - **NEW DATE TBD**
 - Tentatively planning an open meeting in October, details TBD
 - GPC: some discussion about fall/winter parties - updates to come!
 - Also working on creating a way to facilitate discussion between all grad students and/or school social chairs - ideas welcome!
- Admissions events for incoming students
 - First Visit - Saturday 11/12
 - **Will need volunteers to table!**
 - Second Look - March (date TBD)
 - Will be planning Activities Fairs for both events - details to come
- Fall Big/Little Sibs events
 - Pumpkins & Cider on Oct 9th - details tba
- ATMS Study Strategies Workshop
 - October 5th @ noon in the learning studio
 - **Want to send out a spreadsheet with the intention for 4th years to fill out advice on Step exams, the match program, etc. etc.**
 - [Sign up here if you want to help](#)
- IIC cultural fair and clothing drive/thrift store
 - **INOVA clothing drive will be taking place next month**
- Talent Show

- **Trouble hosting a space? Likely to be hosted around Thanksgiving.**
- **Emily reserved a space in McLeod**
 - **Only available dates are December 2nd and next week**
 - **December 2nd is on a summative date for SMD25, but options were very limited**
 - **Tech guy should be available on December 2nd**
- Faculty-Student Luncheon
 - **Misky and Mira will be sending out invitations to faculty members at the end of the month, so please send them recommendations on faculty that you want**
- Boo House?
 - Reached out to boys and girls club and they said that they wouldn't be able to host it at their place, asked if we could host it here at UVA
 - Doesn't seem possible
 - **Boys and Girls club is hosting another Halloween event, so we can gather up some volunteers for that**
- Please add here

● Updates + Debriefs

- Student Wellness Reform and Steering Committee updates
 - 1st Meeting Recap
 - **Very productive meeting with dr. Barry and Dr. Redick present**
 - **Challenging to try to advocate for the student body but staying civil, but our amazing class leaders managed to do so well**
 - **Continuing the hard work of reaching out to admin, researching what other schools are doing, etc etc**
 - Sign-Up:
 - <https://docs.google.com/spreadsheets/d/1wBf4n1JukaHUWRygXSztM7dKL2PVMtLfuXtWPJOcuAg/edit#gid=0>
- New & old officers - please have transition meetings ASAP if you haven't yet!
 - Don't hesitate to reach out to me if you need help arranging

- Anki masterclass?
 - **Took place in August? Looking to hear feedback on this event**
 - **Was apparently great!**
- Secretary + Treasurer Updates
 - **Danny is ready to step down as secretary finally**
- Breakfast with the Dean Series
 - Collaborating with Dean Kibbe and her team for a round-table discussion every month to provide students with another way to communicate with Admin
 - **Potentially make it a random drawing for future breakfast events!**
 - **People who signed up for the first session won't get to sign up for future sessions**
 - Each month will be dedicated to one class; the first session will be with the M1s next Monday (September 26th). Thank you so much to everyone who already signed up :)
 - Including Pinn students through Zoom + gift card for breakfast
 - Hoping to continue it through the year and in the coming years; if you have any feedback on how it can be improved/added, please reach out to Misky, 703-728-0625:)

- **Discussions and Brainstorming**

- Thoughts about recent hate crime
