

Henry Rose Carter Research Award in Malaria or Public Health

A generous gift from Henry Rose Carter was directed to provide support for innovative research **related to malaria or other public health problems**. Proposals must have a clear link to human populations.

It is anticipated that there will be a single, one-year award of up to \$25,000.

Eligibility: Principal Investigators must hold a primary appointment at the School of Medicine at the rank of Assistant Professor or higher (any track).

Deadline: TBA

Award: The award will be announced in late summer, with funds available immediately thereafter. The grantee must submit a written final report to the dean no later than 60 days following the completion of the award year. The Henry Rose Carter Research Award is meant to provide one-time seed or matching funds to innovative projects, and will not provide ongoing support.

Submission: Submit proposal as a single PDF document to [Mary Peace McRae](#) in the SOM Office for Research no later than 5:00 PM on the above date. Use 11 pt Arial font with 1" margins.

- Cover page with project title, PI name the PI, and amount requested
- Technical proposal (two pages including figures/tables, but exclusive of references)
- NIH biosketch, including other support information. There may not be any overlap of funding between existing/pending awards and the proposal submitted under this program.
- Detailed budget, using a PHS 398 form (<http://grants.nih.gov/grants/funding/phs398/fp4.pdf>). Investigator salary and fringe benefits may not be supported by this award; however trainees and technical staff may be included. General staff, administrative support, tuition costs, and F&A costs are not allowed. In general, the purchase of equipment is not allowed.

Research involving human subjects, animals, recombinant DNA, or radiation must be approved by appropriate UVA committee(s) before the onset of the project.

Questions: Please direct any questions concerning this program to [Mary Peace McRae](#).
