

UVA Health

4th Year Medical Student Leadership Program

Leadership in Medicine

The UVA GME Community is sponsoring the fourth annual opportunity for 4th year medical students accepted into elective rotations at UVA (July-October). For students accepted into the Leadership Program, Friday afternoons during each block will be dedicated to seminars, workshops and hands-on experiences in Leadership in Medicine, Addressing Health Disparities, Successful Residency Applications and Internship Survival.

Additionally, participants will have a dinner with current Trainees and representatives from the Houstaff Community Development Initiative (HCDI).

There will be a limited number of \$1,500 travel scholarships available.

Eligibility and Application Process

The Program is open to all 4th year students. Interested students must be accepted to the clerkship of their choice through VSLO to participate in this program.

Participating electives can be found in almost all of our core residency programs. Please contact the individual UVA Clerkship Coordinators with any questions.
