Department of Radiology Residency Program Core Curriculum
Responsibility Chart and Overall Educational Goals

1. Core curriculums are designed by the division directors of each division and reviewed by the Program Evaluation Education Committee, Director, Co-Program Director, Chief Residents, and/or designees, in making sure all ACGME requirements are met.

2. Curriculums are reviewed annually for accuracy. If new ACGME rules occur all curriculums are reviewed/updated.

3. A notebook of the core curriculums is given to each incoming new residents on July 1st of each year by the Residency Coordinator.

5. The Program Director, Co-Program Director, and Chief Residents go over the notebook of curriculums with the incoming residents each year.

6. A notebook is available at all times for the residents to review in the Program Director’s office, Co-Program Director’s office and the Residency Coordinator’s office.

7. Residents also receive the curriculum via New Innovations.

8. Faculty review goals and objectives with the resident at the beginning of each rotation.
