Note: As you may know Dr. Eduard de Lange is an accomplished keyboard player who writes his own music. His songs are influenced by jazz, pop, Latin and classical music, can be heard on places like Spotify, iTunes, and YouTube. He has graciously made six of his recent songs available on a CD for a fundraiser for the Resident Educational Fund at this year’s Keats Society Reunion. This fund is important to our trainees and is used to purchase educational training items and guest speakers that they otherwise would not have.

The CD will be given away as a token of appreciation to those who donate a minimum of $10 to the Fund. We hope you will contribute generously and help the Educational Endowment Fund grow. All donations are tax deductible.
