Request Form - "C USER - EXTERNAL USER"

Responsible PI (please print) \_\_\_\_\_

Responsible PI Signature \_\_\_\_\_

Responsible PI E-Mail Address \_\_\_\_\_

Institution / Center Name \_\_\_\_\_

Contact Phone Number \_\_\_\_\_

Investigator Requesting Service (if different from above) \_\_\_\_\_

Requesting Investigator E-Mail Address \_\_\_\_\_

METHOD OF PAYMENT:

Please check one
Direct Bill (check or credit card)
PO# (please provide PO# at time of sample submission)

Date Samples Shipped \_\_\_\_\_

Requested Test \_\_\_\_\_ (one test per request form)

When ordering a Multiplex or an ELISA test, indicate in the Special Instructions section below whether specific groups of samples should be kept together during assay.

Number of Samples \_\_\_\_\_

Do any of the samples contain Biohazardous and/or Chemical Hazardous agents? YES \_\_\_ NO \_\_\_
If YES, complete and submit Biohazardous and/or Chemical Hazardous Agents disclosure form, found on our website.

\*\*Samples will not be run until these questions are answered by investigator.

Run samples as:

Source of Samples: Mouse singlet [ ]
Rat duplicate [ ]
Human other [ ]
\*Tissue Homogenate dilution(s) requested [ ]
Cell Culture Media what dilution? \_\_\_\_\_

\*If investigator expects assay values to be high, it is recommended that they request preliminary dilutions performed on at least a few samples.

If sample volume does not allow sample(s) to be run undiluted, do you want the sample(s) run at a dilution? YES\_\_\_ NO\_\_\_
SPECIAL INSTRUCTIONS:

FOR CENTER USE ONLY

Date samples received \_\_\_\_\_ Tech initials \_\_\_\_\_

Date testing completed \_\_\_\_\_ Date results sent \_\_\_\_\_

FDF Included with shipment of samples/FDF on file \_\_\_\_\_

No FDF with shipment of samples or on file/FDF requested on \_\_\_\_\_
