PO# (please provide PO# at time of sample submission)

Date Samples Shipped

Requested Test (one test per request form)

When ordering a Multiplex or an ELISA test, indicate in the Special Instructions section below whether specific groups of samples should be kept together during assay.

Number of Samples

Do any of the samples contain Biohazardous and/or Chemical Hazardous agents? YES NO
If YES, complete and submit Biohazardous and/or Chemical Hazardous Agents disclosure form, found on our website.

\*\*Samples will not be run until these questions are answered by investigator.

Run samples as:

Source of Samples: Mouse singlet [ ]
Rat duplicate [ ]
Human other [ ]
\*Tissue Homogenate dilution(s) requested [ ]
Cell Culture Media what dilution?

\*If investigator expects assay values to be high, it is recommended that they request preliminary dilutions performed on at least a few samples.

If sample volume does not allow sample(s) to be run undiluted, do you want the sample(s) run at a dilution? YES NO For Mouse/Rat AMH, declare SEX of animals F M

SPECIAL INSTRUCTIONS:

FOR CENTER USE ONLY

Date samples received Tech initials
Date testing completed Date results sent

FDF Included with shipment of samples/FDF on file
No FDF with shipment of samples or on file/FDF requested on
